Our Vision

A FUTURE WITHOUT HOMELESSNESS

Our Mission

The mission of the Student-Run Emergency Housing Unit of Philadelphia (SREHUP) is to achieve long-lasting positive changes for the community of people experiencing homelessness by providing for this population's immediate needs while empowering individuals to lift themselves out of homelessness and advocating for changes that will end homelessness.

SREHUP achieves this mission by providing guests with a place to sleep, warm meals, a variety of holistic programs, and assistance in attaining permanent housing. SREHUP is committed to raising public awareness and engaging with leaders in the community about the issues surrounding homelessness.

Throughout all of its work, SREHUP strives to build a caring and mutually transformative community between students and people experiencing homelessness.

Our Structure

SREHUP is a non-profit organization made up of seven distinct college chapters in the greater Philadelphia region. SREHUP's work is organized by a board of student directors, consisting of the seven chapter presidents and nine student directors, each with distinct responsibilities crucial to the success of the organization's work.

SREHUP is built upon a strong foundation of student volunteers committed to the fight against homelessness in Philadelphia. The volunteers, organized through their respective college chapters, serve the guests at our housing units, participate in fundraising and grant-writing efforts, and advocate for the people experiencing homelessness. Each school chapter is uniquely structured to best serve the students at that particular school. This structure allows SREHUP to benefit from the strong leadership of the Board of Directors while granting the chapters a level of autonomy that allows students with varied schedules and commitments to take part in its great work.
